

Annual Report - Fiscal Year 2018/2019

Our Mission is to raise awareness and funds to conduct research to find a faster cure for pediatric cancer.

Impact this past year, the Foundation aggressively pursued its mission with a robust passion and drive. We continued to scale our collaborative research and outreach programs “nationwide” through strategic partnerships, philanthropic and corporate support. We are extremely grateful for the generous donors, volunteers and partners that helped establish and grow multiple successes.

In fiscal year 2018/2019, the National Pediatric Cancer Foundation:

- ✓ Was recognized by Charity Navigator as an exceptional, top rated charity with a 4-star / 100% rating for an eighth consecutive year. We also received the highest rating for a “health / medical research related charity” and the only “health/disease” charity rated @100% according to Charity Navigator.
 - ✓ Less than one percent of the thousands of charities rated by Charity Navigator have earned perfect scores.
 - ✓ Only 4% of the charities evaluated have received at least 8 consecutive 4-star evaluations, indicating that National Pediatric Cancer Foundation outperforms most other charities in America.
- ✓ Funded the “NPCF Sunshine (Research) Project” with \$2,000,000 for fourteen initiatives with 24 strategic research partners. We are seeing positive movement with patients being added to the Gem/Nab, SoNib/Topo, ACTION, LSD1 and VIT trials.
- ✓ Conducted the annual “Research Summit” in February with more than 300 in attendance and we announced an additional \$1million in funding for innovative/creative research
- ✓ Created multiple cause campaigns establishing the Foundation on a national scale to enhance funding for our research efforts:
 - Fashion Funds the Cure - the “dream walk” in 15 markets
 - Fishing Funds the Cure - multiple tournaments and an on-line virtual tournament
 - Brewing Funds the Cure - creating “Rising Hope IPA”
 - Cooking Funds the Cure - challenging people to raise funds and awareness through everyday meals, events or retail points of sale
 - Walking Funds the Cure - events in multiple markets
 - Playing Funds the Cure - challenging people to raise funds and awareness through sports and recreation like USA Softball, cornhole, tennis, etc.
 - Cut & Color for the Cure - challenging people and organizations to cut or color their hair and raise awareness and funds

- Do-it-Yourself (DIY) - on-line peer to peer fundraising model
- ✓ Our volunteer and staff teams are very dedicated and willing to advance the fight. We have many new volunteers engaged through our formal board committee and event process. The board nomination committee has also identified a solid pipeline of board candidates. Our staff team includes specific subject matter experts in marketing, fundraising and operations, and they continue to develop and impress
- ✓ Collaborated with several strategic partners:
 - The Tyler Robinson Foundation - we circulated our Education Toolkit to 60 hospitals and hundreds of pediatric cancer patients.
 - Sebastian Strong Foundation - research support for two studies
 - HOSA Future Health Professionals - we served as the organization's "national service project", whereas HOSA students helped raise awareness and funds
 - Fishing League Worldwide - we partnered to increase awareness about cancer through kids fishing
 - APHON - we're partnering with nurses to advance education and awareness
- ✓ Financial Highlights for fiscal year 2018/2019:

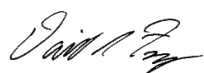

Total Gross Revenues =\$4,320,000
 Expenses
 Program - \$3,143,236
 Administrative - \$140,548
 Development - \$239,700
 Net Assets = \$5,035,000

- ✓ Specific details and additional accomplishments are also provided on our website, to include:

IRS form 990
 Annual financial statements (income & expense) Listing of activities/ accomplishments
